ART CLASSES POSTPONED

Don Jason's Monday afternoon art class has been postponed for a few weeks starting this next week, the 12th. They will resume after the holidays.

COVER PICTURE

Our cover picture taken about 50 years ago should bring pleasure to many and interest to all. The picture and pertinent facts of the history surrounding the property are typical of this area yet not to generally known. We thank William S. Corey of Aucoot Road, Mattapoisett for it.

What we now know as Harbor Beach was originally known as the Town Poor Farm. As was recently done in town meetings to dispose of our last almshouse a town meeting vote was necessary on an article in the warrant to sell the property to Mr. Jerome R. George of Worcester, Mass. During his ownership the stone base structure we now know as Harbor Beach Lodge was constructed for Mr. George by E. J. Cross of Worcester in 1915 as a summer home and landscaped as shown.

Later Mr. George sold the property to H. C. Hunt of Boston and Mr. George summered at Kitanset. The 1938 season it was leased by Dr. Riggs of the Lenox, Mass. area who was there during what we refer to as our first hurricane. Ex-mayor Matthew Glynn of New Bedford also leased the property during the time he was mayor of New Bedford.

In 1948 the area was sold to William E. Schlusemeyer, a man of great vision, who had high hopes for the development of the section.

He sectioned the area into house lots and started the beach development and improvement.

He is now reported to be very wealthy, and his reputation for nationwide property development has pegged him a man of extreme vision in sensing possibilities for real estate development. Harbor Beach was among the first of his attempts, and what he had in those days was courage and ideas and knew he was right. For Mattapoisett he was, for surely many families have enjoyed his efforts and the town the benefit of the taxes.

May and Jim Lynch took possession of the mansion in 1950 and through good times and hurricanes have smiled and played their way to popularity operating the edifice as the Harbor Beach Club.

Right now the Harbor Beach area is on the map as far as Walpole and plans in the offing from that quarter, if they develop, will put Harbor Beach and Mattapoisett on the lips and in the interest of thousands of people throughout the country. Also if the plan goes through the town will benefit in new taxes. We hope to be privileged to tell you more about it in the near future.

CENTER SCHOOL NEWS

A Christmas display was begun this week in Grade two. Dexter Morgan and Thomas Matthews built the wooden structures. Decorating is being done by Alicia Crabbe, Elaine Cayton, Johanna Teachman and Brenda Kinney.

Grade 3x wrote an original song called "My Wish For Christmas". Mrs. Winslow is helping them with the music.

Grade 4x has seen filmstrips on maps and the way men make use of them. They also studied the history of our flag and how to treat it with care and respect.

After studying a Greek myth in language, the boys and girls of Grade 4y enjoyed taking part in a dramatization of the myth. The class also made some interesting snow scenes in art, using cotton to produce a good snow effect.

Grade 8y has been busy working on Christmas decorations. They have also made geography notebooks on Learning in America and other countries, which will be on display Monday. The class will have a dance on December 23 at the Center School

TWO PLAYS TO BE PRESENTED

Grade Nine will present two plays on Friday, December 9th at 8 P. M. in the Center School auditorium. Students may attend a dress rehearsal on December 8th at 2 P. M. Candy will be sold at the plays. Tickets may be obtained from ninth graders.

BUY CHRISTMAS SEALS

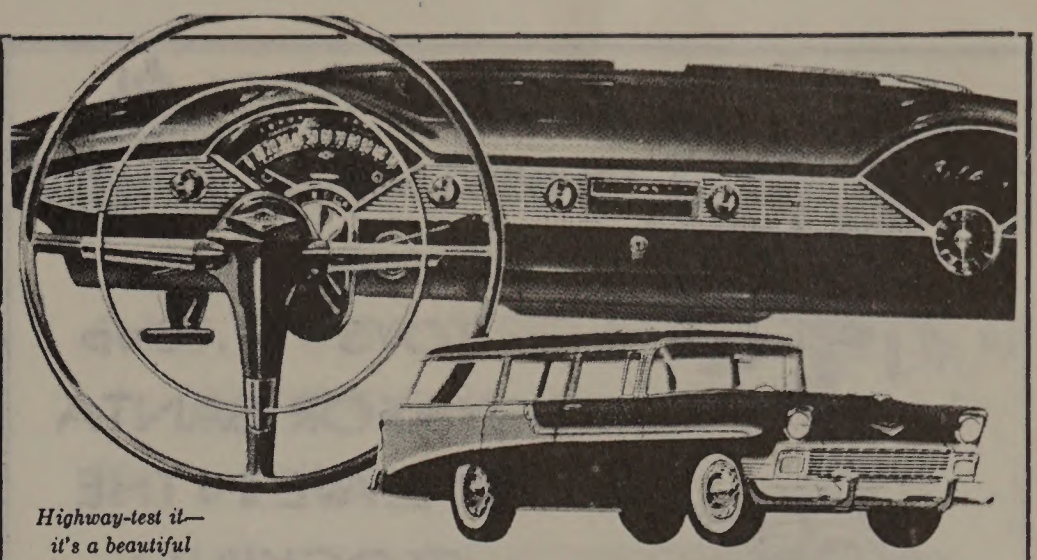
In a statement urging residents of Mattapoisett to support the work of Plymouth County Health Association through their purchase of Christmas Seals, Mrs. William P. Suzarr, Seal Sale Chairman, pointed out that contrary to the beliefs of many, the tuberculosis problem continues to occupy a prominent place in the health picture. Though much progress has been made in the last fifty years to bring the horrible death rate of tuberculosis under control, much work continues to be necessary if the numbers of people who continue to fall victim to the disease are to be decreased by the same rate. At this very moment, it is estimated that 400,000 Americans have tuberculosis in an active form. At least 150,000 of these people are not even aware of their condition though they may be spreading the disease to others. If these people are to be helped and the people with whom they come into contact to be protected, they must have their cases diagnosed and begin their period of treatment. This is a problem of education



Highway-test it— it's a beautiful thing to handle!

SOME THOUGHTS OF MINE
Seeds of Happiness
by Murray R. Tuttle

Time goes by though we are still
Trying to climb life's great hill.
Were it not for those we love each day
Life would be dreary as we pass this way.

We should be grateful for those we love
Who come to us from the Power above.
We linger on in this world of woes
Surrounded by friends as well as foes.

If we would spend our time while here
To bring each other a little cheer
How different life would surely be
For one and all as we climb life's tree.

But one and all sorrow must share
For some of us have little care
For what we do or what we say
Which clouds our sky as here we stay.

Be cheerful and happy each day you spend
With those you meet 'ere the day does end.
Give of yourself the best you know
And seeds of happiness you will sow.

Where winter is frowns and summer is smiles

The seasons will change they will go and
will come
Ere I turn back again to my faraway Home
And Hope that Bright Spectre she beckons me
near
To my Wife and my babes and the friends I
hold Dear.

I shall see faraway in the South and the
West
Bright Islands that smile like the Land
of the Blest
Where blossoms and evergreens cover the
trees
And their branches are waved by the Tropical
breeze.

There birds with gay plumage will sing in
the Bowers
Where the air is perfumed with the sweet
blooming flowers
The sweet sounding notes by these warblers
made
Are like sounds that I think have from
Paradise stray'd.

There's fruit more delicious than any that
grow
In a more northern climate of frost and
of snow
These bright southern Isles with their
climate so bland
Have no charms for me like my own native
land.

There is no charm for me in these Bright
southern Isles
In their dark flashing eyes or their Bright
sunny smiles
Like the charms of my own Native Vallies
so fair
With the "love lighted eyes" that will
welcome me there.

continues moderate. At daylight this morning Land is in sight on our Larboard beam. There is likewise three or four sail in sight. The Land in sight is the Island of St. Lucia. This day I write a letter to my wife. At 5 o'clock P. M. we fall in with two Portugese Man of War Brigs. One of them is under Jury Mast. She was dismasted a few days ago on the Equator in a squall. They are bound to Lisbon. Mr. Lyon boarded the Commodore's vessel and took our letters on board. He politely took them to forward home. The Latitude this day is 15° 46' North Longitude 24° 52 West.

Tuesday, July 30th - This day begins with beautiful weather and verry little wind. At daylight we see the Islands of Bravo and Fogo 20 miles distant. Fogo is high Land and a quiet Volcano. It is cloudy with some signs of rain early in these 24 hours. This day the Longitude by Chronometer is twenty four twenty five West. Longitude by the Island of Bravo is twenty four fifty West making a difference of twenty five miles between the time and the Land at six P. M. We are within 8 miles of the Land. We saw a Whale Ship with a boat ashore at this Island. The weather this night is as beautiful as any that ever visited Ocean Earth or Sky. Mr. Lyon paints his boat this day.

Wednesday, July 31st - This day begins with beautiful weather. At six o'clock A. M. the wind is light with squalls of rain. There is a whale ship in sight 6 or 8 miles off. The weather is verry warm this day with light airs of wind and the horizon obscur'd occasionaly with light hazy clouds.
